

## Bette Perot Elementary **Green Patrol Club**

Do you want to make the earth a cleaner place to live? If you answered **YES**, then you can be a part of our Green Patrol.

Green Patrol is a group that consists of students, parents, and teachers asking the question, "How can I help to protect the air, water, and land?"

The answers may be easier than you think.

Green Patrol has activities organized to give our students the opportunity to make a difference. Some of these include:

- **Starting a classroom recycle audit** - Green Patrol would include a selected group of students auditing the recycling and trash bins in classrooms and other locations throughout the school.
- **Catching kids "Green Handed"** - On designated days if Green Patrol witnesses a "Green" act, they can award a green hand to a student. Students will be mentoring students on being green.
- **Campus Clean-Up**- Teaching kids to take pride in their neighborhood and understanding how litter affects life on every level.

Green Patrol members will do activities either before, during, or after school a couple of times per month, depending on the project. Dates will be emailed to parents throughout the year.

**Through BPE Green Patrol we can empower our kids to learn ways to prevent pollution and practice environmental stewardship.**

**Parents we are also looking for volunteers!**
